Lords of Time

Level 9 Computing

Travel through world history, seeking items to avert the evil future planned by the Timelords. Shed light on the Dark Ages, go romin' with Caesar's legions etc. etc. This massive, pure-text adventure has over 200 locations and lots of puzzles.

Level 9 Computing specialise in adventures. Big adventures. We have developed sophisticated techniques for cramming huge games into 32K and now produce versions for many popular computers.

Our games are designed much like novels, with detailed backgrounds and interesting storylines: the result is more enjoyment for you. And don't worry if you get stuck. Just write to us for a clue sheet that will tell you almost everything you could ever want to know about a game.

Into the cauldron you must throw —
an olive branch, makes friendship grow.
A dragon's wing, a sign of flight,
An ivory tusk, a sign of might.
Mix in the teardrop, a touch of sadness,
and the evil eye, a sign of badness.
Add a dinosaur egg, a sign of birth,
with the jester's cap, a symbol of mirth,
plus the silicon chip, a vital invention,
and the golden buckle, a bone of contention.

If you do this, before time runs out,
a winner you'll be — there is no doubt.
But take care when you find the lords,
or you'll not gain your just rewards,
your quest will all have been in vain,
and you will have to start again.

This super adventure was designed by Sue Gazzard, and programmed by the team at Level 9 Computing.

REVIEWS

"Lords of Time. This program, written by newcomer Sue Gazzard, joins my favourite series, and is an extremely good addition to Level 9's consistently good catalogue .. Lords of Time is a text adventure, as are all Level 9's games, and concerns an absurd dream you have. It turns out that the Evil Timelords are meddling with Earth's history and, of course, it is your job to defeat them. To accomplish this, you must travel through nine sectors of time and collect all the objects needed to defeat the Timelords. So, in one game, you will go from the prehistoric Ice Age, through Roman and Medieval times to the present and beyond to the far future. The inhabitants of the various sectors are not above creeping through to wreak havoc in another area.

As we have come to expect from Level 9, the program is executed with wonderful style — none of those boring "You can't do that" messages! Highly recommended."
